

BETTER SCIENCE. BRILLIANT WATER.®

## A GOOD PRICE FOR GREAT WATER

A water softener is an essential element to the modern household. Hardness minerals can cause high-efficiency appliances to lose their effectiveness or damage them. These minerals will also build up deposits in your home's plumbing, your laundry, and even on your family's hair and skin.

Extend the life of your home with our Evolve Series ES water softener. Developed with the same high quality engineering as our more advanced models, the ES is a dependable unit needing little maintenance.

Evolve products are proudly made in the USA with only high-end materials. You can rest assured that an Evolve Series softener will provide the long-term solution for your hard water problems.

## THE BENEFITS OF A SOFTENER

Hard water carries additional minerals such as calcium and magnesium which will negatively effect areas throughout your home. After installing an Evolve Series water softener, you will notice:

- Less mineral build-up in plumbing
- Increased life and efficiency of water-using appliances
- Smoother and more moisturized skin and hair
- Softer, brighter, and longer lasting towels and clothing
- Less detergents and cleaners needed
- Reduced soap scum in showers, bathtubs, and sinks
- Cleaner dishes and glassware

Hard water problems can not only be a hassle, but cost you money. A water softener will help your home run more efficiently and help you save in the long run.

## ECONOMICAL AND CAPABLE.

Every component of the Evolve Series® ES unit has been designed to efficiently bring water to you and your family. This softener can improve the way your home operates with little to no effort.

### 1 Exclusive Technology

- Deep cleaning regeneration only when necessary
- Exclusive features insures consistent water quality
- Only one internal moving part for easy maintenance
- Battery back-up

### 2 High-Performance Resin

- Powerful and durable media
- Reduces the minerals that cause hard water
- Undergoes rigorous quality control testing

### 3 Quartz Underbedding

- Delivers high and consistent flow rates
- Provides accurate and efficient cleaning process

### 4 Low-Maintenance Brine Tank

- Built-in safety float
- Heavy duty, corrosion-free material
- Fills with soft water which reduces cleaning
- Dry salt storage

## THE SCIENCE BEHIND BRILLIANT WATER.

MODEL		ES-844	ES-1044	ES-1054	ES-1354
Rated Softener Capacity :*(Grains/Lbs. Salt)	Minimum	13,700 @ 3.4	18,200 @ 4.5	27,600 @ 7.0	45,800 @ 11.5
	Medium	16,800 @ 6.0	23,500 @ 9.0	36,700 @ 15.0	53,900 @ 18.0
	Maximum	18,800 @ 8.0	28,000 @ 15.0	42,000 @ 22.5	69,800 @ 37.0
Efficiency at 1 lb Salt Setting (Grains/Lbs Salt)		4,042/1	4,042/1	4,042/1	4,042/1
Max. Service Flow Rate (GPG)		11.7	16.0	13.3	17.1
Max. Pressure Loss at Max. Service (PSI)		15	15	15	15
Min. to Max. Working Pressure (PSI)		30-100	30-100	30-100	30-100
Min. to Max. Operating Temperature (°F)		33-100	33-100	33-100	33-100
Max. Flow to Drain During Regeneration (GPM)		1.3	2.2	2.2	3.2
Amount of High Capacity Cat-ion Resin (Cu. Ft.)		.75	1.0	1.5	2.5
Electrical Requirements (volts-hertz)		110-50/60	110-50/60	110-50/60	110-50/60
Pipe Size		1"	1"	1"	1"
Total Dimensions:	Media Tank and Valve	8"W x 52"H	10"W x 52"H	10"W x 62"H	13"W x 62"H
	Brine Tank	18"W x 33"H	18"W x 33"H	18"W x 33"H	18"W x 40"H

All water softeners listed above are set at "medium salting" from the factory.
